

Planning Division Fiscal Year 2008 (FY08) Work Program Survey Responses

In developing the Planning Division Work Program, a public survey was posted on the Planning Division web page. The survey was launched on September 19, 2007 and concluded on October 22, 2007. A total of 133 survey responses were submitted. The survey presented seven Work Program items previously identified as high-priority in FY07.

Question #1 asked participants to select the three items they consider most important in helping the Planning Division promote livability in Eugene. As shown below in Figure 1, Infill Compatibility Standards was chosen most frequently, followed by Mixed Use Centers. The remaining five programs all received approximately the same numbers of favorable votes. **Question #2** asked participants to submit other projects they would like to see listed as high-priority items. These ideas are listed in Figure 2. **Question #3** asked respondents to list projects or programs they feel should be removed from the list of high-priority items. There were relatively few responses to this question, with each item receiving no more than eight votes. Lastly, survey participants were provided a link to the draft version of the FY08 Work Program. **Question #4** asked participants to provide any general comments they had about the draft Work Program. These additional comments are included with the complete list of survey responses that are available on the Planning Division web page.

Figure 1

Note: There was no limit to the number of times individuals could submit a survey. A number of surveys (35) of the 104 supporting Infill Compatibility Standards were submitted without any further elaboration or selections.

Figure 2

List of Other Suggested High-Priority Projects/Programs
Alternative transportation support/expansion of EmX/Transit Oriented Dev't (6)
Address street tree code (4)
Neighborhood Services (3)
Planning for climate change and peak oil (3)
Sustainability initiatives (3)
Maintenance of streets (3)
Neighborhood Summit/Initiative (3)
Downtown planning (3)
River Road/Santa Clara annexations (3)
Speed up permit process (2)
Major Code amendments (2)
Stormwater planning (2)
Hire more staff to work on items (2)
